

## **Parts of the Eye Game**

### **Choroid**

A layer of blood vessels that supplies nutrients to the retina

### **Cornea**

The clear outer part of the eye; located at the front of the eye

### **Eyelid**

The skin-covered structure that protects the front of the eye, limits light entering the eye, and spreads tears over the cornea

### **Fovea**

The center of the macula, area of the retina that gives the sharpest vision

### **Iris**

The colored part of the eye that regulates the amount of light that can enter the eye

### **Lens**

The clear part of the eye behind the the iris that helps focus light on the retina; allows the eye to focus on both near and far objects

### **Macula**

The small, most sensitive area of the retina that gives central vision and contains the fovea

### **Optic nerve**

The bundle of over 1 million nerve fibers that carries messages from the retina to the brain

### **Pupil**

The opening at the center of the iris; the size of the pupil is controlled by the iris

### **Retina**

The light-sensitive tissue lining the back of the eyeball that collects electrical impulses to send to the brain

### **Sclera**

The white, tough outer coating of the eye

### **Vitreous humor**

The clear gel filling inside the eye

**Choroid**

**Cornea**

**Eyelid**

**Fovea**

**Iris**

**Lens**

**Macula**

**Optic nerve**

**Pupil**

**Retina**

**Sclera**

**Vitreous humor**
