Yin-Hsiu (Aaron) Chen, originally from Taipei, Taiwan, is currently a Data   Scientist at Waymo, a subsidiary of Alphabet. He received his Ph.D in Biostatistics from University of Michigan in 2017 and his dissertation advisor was Dr. Bhramar Mukherjee. Before joining Waymo in the middle of 2020, he was a Data Scientist at Google Ads focusing on lift study and marketing analytics in digital advertisement.

Aaron's mission of applying statistics in practice is consolidating information in a quantitative and meaningful way. His work has involved causal inference, experiment design, anomaly detection, importance sampling, and etc. In this seminar, Aaron will give you a glimpse into his day-to-day work and what it is like to be a data guy in industry.
