

## MMCC Lab: Handling of Chemicals

- (1) If you have not used a chemical before then talk to a supervisor.
- (2) Read the bottle for warnings.
- (3) Read the Material Data Safety Sheet. This is available online.
  - a. Go to <http://www.msds hazcom.com/> and look up the Material Safety Data Sheet by chemical name, manufacturer, and or CAS number.
  - b. If the chemical is not listed then go to <http://www.msdsprovider.com/>. We have a subscription. The login with the user name [mmcclell@uci.edu](mailto:mmcclell@uci.edu) and the password *jmjavors*.
  - c. Do not proceed unless you have located the MSDS. If you cannot locate it, ask a supervisor.
- (4) SOPs for individual chemicals can be found at [http://cls.ucla.edu/resources/sop-library/CLS/-%20Standard%20Operating%20Procedure%20\(SOP\)%20Templates/detail](http://cls.ucla.edu/resources/sop-library/CLS/-%20Standard%20Operating%20Procedure%20(SOP)%20Templates/detail). Our user name is *jmjavors* and our password is *5082oo*. When using a new chemical, download the SOP and have you and your supervisor complete and sign the form.
