# Studiocode

developed by Studiocode Business Group,
a Division of Sportstec LTD

| Capacities | Limitations |
|---|---|
| <ul><li>Capture, Categorize, Analyze, & Distribute</li><li>Access, edit, and compile footage in minutes</li><li>Deliver video content to the desktop or secure websites or web</li><li>Access points for students or research colleagues to access</li><li>Preserve, archive, and retrieve data easily</li><li>Reduce operational and business costs</li><li>Collaborate with co-workers easily</li><li>Two types of license: a dongle USB device that contains the license and an online registration. Licenses can only run on one machine at one time. There is no license concurrency.</li></ul> | <ul><li>Only MAC OS X application</li></ul> |

## Types of file supported

Studiocode is a QuickTime-based application so it works on most formats.

## Other information

Even if Studiocode is a MAC OS X application, all movies created in Studiocode can be played back in QuickTime Player on a Windows PC. The only requirement for Windows PC is to have QuickTime Player installed on it.

## Platform

| MAC | WINDOWS | Others |
|---|---|---|
| ✓ | ✗ | ✗ |

## Cost

Not specified.

Training and support is provided: the costs differs from country to country and may include recovery of travel costs.

## Publications about the software

- Rich, P.J., & Hannafin, M. (2009). Video annotation tools: Technologies to scaffold, structure, and transform teacher reflection. *Journal of Teacher Education*, *60*(1), 52-67.
